

Commercial Construction Site Manager/Supervisor

- Experienced commercial Site Manager/Supervisor required
- Permanent full-time position

We are a dynamic company which specialises in institutional and corporate commercial building works. We are currently seeking an experienced, hands on Site Manager for a permanent full-time position.

The candidate must have the following experience:

- minimum of 5 years Site Management experience in delivering commercial construction projects with architectural supervision
- trade qualification (optional)
- ability to build professional and productive relationships with all stakeholders
- thorough understanding of programming and proven ability to achieve tight target dates
- coordinate trades, sub-contractors, equipment and materials in line with the construction scheduling requirements
- ability to read and interpret plans and specifications accurately
- organise construction works and deliver quality results safely, on time and within budget
- ability to offer constructive solutions and improvements
- ability to work both autonomously and in a team environment
- work with integrity and accountability

The following is required of the applicant:

- Building Supervisors License
- White Card
- Police Clearance
- Driver's license
- Provide references upon request

An attractive salary package commensurate with skills and experience will be offered to the successful applicant.

If you meet these criteria, we encourage you to forward a covering letter and CV. All applications will be treated as strictly confidential.

Please be advised that only shortlisted candidates will be contacted.
